# BIG YELLOW SERVICES

**B**ig Yellow Services is a family owned and operated, full service exterior and interior landscape design, installation and maintenance company servicing Florida with the resources, industry connections and track record that is second to none.

As a company always striving to be the best of the best in the industry, we at Big Yellow Services have made a name for ourselves based on our excellent reputation and firm belief that reliability, honesty, integrity and pride in our work is the only way to maintain our continued success.

Upon further inspection of our company you will find Big Yellow Services has the most competitive prices in the industry and goes far beyond what others are willing to do for the same compensation.

---

We are licensed and bonded throughout the state of Florida with complete workers compensation insurance 1 million dollar liability and 5 million dollar umbrella coverage. We thank you for your consideration and look forward to having you as one of our valued customers.

# CONSISTENT & EFFICIENT

---

Upon adding a new property to our maintenance schedule our protocol is to assign the proper number of men to accomplish the job with the utmost efficiency and meticulous attention to detail. Once this is established that crew will be solely responsible and accountable for that property each and every visit. With this format our crews become proficient at managing the properties they work on. Although our crew members' quality of work can stand on their own each crew is also headed by a crew supervisor every visit for constant overseeing and assurance that no detail is overlooked.

---

Beyond our normal checks and balances our regional project supervisors visit each site once per week to solidify our work is of the highest quality in the industry.

# ARTISTIC MIND GREEN THUMB

When designing a new landscape or remodeling an existing one, our designers consider factors such as the longevity, health and continued long term beauty of the plant material. For example; seasonal climate changes that may be experienced in a particular zone, possibility of frost, water restrictions/drought conditions, sun exposure and soil conditions.

With those items in mind we then proceed to design a unique colorful landscape with multiple textures and elevations appropriate to the architecture and style of the surroundings. We also install our plant material with the proper spacing for healthy future growth. When planting trees we consider items such as hardscapes that may be damaged by future root growth and also position trees far enough away from all structures and other large plant material so the future growth of the tree is healthy and unobstructed.

# PREMIUM MATERIALS SUPERIOR SERVICE

Our exterior and interior landscape installation supervisors personally hand select our plant material to meet all your specifications utilizing Florida #1 or Florida Fancy grade only. As a customer of ours you can rest assure that you will never receive inferior, undersized or unhealthy plant material but rather the largest and healthiest plant material possible, whether from our own nursery or our selective high quality growers.

We at Big Yellow Services feel that it is not only about what the newly installed product looks like but the necessary steps taken from seedling onward that will help to ensure plant health and longevity. Our container and tree material is grown using only the finest specimens and monitored daily for proper irrigation, fertilization and pruning. Our tree material is grown using the latest in horticultural sciences such as air pruned pots which ensure there are no circling roots which lead to improper anchoring and unhealthy future growth.

# UNMISTAKABLE QUALITY & DESIGNS

---

Our seasonal flower rotations stand out amongst the rest simply because we at Big Yellow Services pride ourselves on the use of unique and interesting seasonal flowers not commonly seen in other landscapes, not only for their inherent beauty but for their sustainability between rotations.

Flowers are also chosen based upon soil conditions, sun exposure, seasons and upcoming weather patterns. Location of plantings are also considered such as size of beds, heat from asphalt roadways and traffic activity.

---

All seasonal plantings are installed on a bed of fresh planting soil with the proper mix of peat moss and top soil. Seasonal plantings are maintained with the highest quality fertilization, fungus and insect control as well as routine pruning to ensure a groomed, healthy, blooming flower.

# INTERIOR LANDSCAPE DESIGNS

Our interior landscape designs and impeccable maintenance service will greatly enhance any interior environment. We offer the sale or rental of premium plant material and decorative containers, as well as free design consultation, plant rotation and plant replacement guarantee. Utilizing your interior architecture, lighting and color pallet we create a beautiful interior landscape with various texture, elevations and colors. Our unique, “outside of the box” designs will provide you with that competitive edge to excel in any marketplace.

# RESOURCEFUL & CAPABLE

Here at Big Yellow Services we offer a multitude of services which include; arbor care, sodding, conventional and hydro seeding, fertilization/pest control, state of the art irrigation systems, aquatic maintenance, landscape lighting, water & fire features, decorative ground covers, hardscape installations and seasonal decorations. We also offer tractor, crane, 60' bucket truck and Bob Cat services which include; grading, tree installation, pruning and removal, multi acre vacant lot mowing and brush clearing.

The quality of our workmanship and attention to detail is what sets us apart from the rest. We never cut corners or lose sight of a job well done. At all times we guarantee any customer request will receive immediate personal attention by either our highly trained staff or the company owners. We hold our customers in very high regard and work with tireless effort until the task at hand is completed and our customers' expectations have been met or exceeded.
