Letter of Recommendation

August 12, 2009

As a Community Manager for Sentry Management, I manage several properties in Tampa, Clearwater, St. Petersburg and Lakeland, Florida. I have had the pleasure of working with Chris and her landscaping company, Big Yellow Landscape Services on two of my upscale properties, Northbridge @ Lake Pretty and Cordoba at Beach Park.

When Big Yellow took over Northbridge @ Lake Pretty more than a year ago, the property was in dire need of TLC. The Board decided to completely redo the front entrance and Chris was instrumental in the design and putting together a truly stunning entrance to the property.

I brought Chris into my Cordoba at Beach Park property, which is a large condo Association near Westshore Mall, after finally releasing a large, well known landscape company for poor performance. Cordoba was horribly neglected and we set the expectations bar very high for Big Yellow. It has been a month and a half and they have once again far exceeded the Board's expectations.

The professionalism and expertise of Big Yellow is apparent when you work with them on any level. Whether it's something small or a large job. They can provide services that a lot of other landscape companies do not have access to.

I would highly recommend this company to anyone needing an excellent landscaper. I would love to have them on more of my properties.

If you would like to discuss Big Yellow or have questions that I might be able to answer, please feel free to contact me.

Respectfully,

Jennifer Bandas
